Marine

Crafting Yacht Solutions Worldwide

Yacht supply & specialist services

INTERIOR / DECK / ENGINEERING

Luxury brands. Technical sourcing.
Operational and project support.

MYT MARINE

MYT Marine

Supply, sourcing and support across the yacht.

MYT Marine supports captains, engineers, interior teams, yacht managers and shipyards with technical procurement, luxury outfitting and coordinated yacht services.

Interior

Luxury furniture, linens, tableware, guest amenities and galley equipment.

Deck

Cleaning products, deck hardware, safety equipment and crew supplies.

Engineering

Engines, pumps, onboard systems, electrical components and electronics.

Mediterranean operations / Worldwide sourcing and delivery coordination

Services for the complete yacht

Practical support for operations, maintenance, new builds and refits.

Technical management

Maintenance planning, technical follow-up and contractor coordination.

Bunkering

Fuel enquiries, quotation comparison and supply coordination.

Hard-to-find parts

Identification, cross-referencing and sourcing of obsolete components.

Project management

Refit and outfitting scopes, purchasing schedules, budgets and progress.

Viareggio storage

Storage, order consolidation and onward delivery arrangements.

Interior outfitting

Brand selection, specifications, purchasing and delivery planning.

Selected supply experience

Selected brands across our sourcing portfolio.

Yacht services

Technical, operational
& project support

A single point of coordination for sourcing, maintenance, refit requirements and shore-side logistics.

Technical management

Technical oversight aligned with the yacht's operational needs.

Maintenance planning
and technical follow-up,
with clear priorities.

Plan the work

Identify maintenance needs, service intervals, spare parts and technical priorities.

Coordinate specialists

Liaise with the captain, chief engineer, yards, technicians and equipment suppliers.

Track requirements

Follow quotations, approved expenditure, service progress and outstanding items.

Support is scoped to the vessel, its equipment and the responsibilities agreed with the owner or manager.

Project management

Coordination for refits, upgrades and interior outfitting projects.

Keep scope, purchasing and delivery working to the same schedule.

Define the scope

Organise specifications, work lists, purchasing requirements and project milestones.

Manage procurement

Compare proposals, monitor budgets and lead times, and coordinate approved orders.

Follow through

Track suppliers, contractors, deliveries, progress and completion items with the project team.

Available for defined projects, technical packages and interior outfitting scopes.

Bunkering

Fuel sourcing and delivery coordination for yacht operations.

Coordinate the fuel requirement with the vessel's itinerary.

Prepare the enquiry

Confirm location, dates, volume, fuel specification and the vessel's requirements.

Compare the offer

Present supplier quotations with delivery conditions, charges and payment terms.

Coordinate supply

Liaise with the yacht, supplier and local contacts on the agreed delivery arrangement.

Port access, delivery method, availability and final terms are confirmed for each bunkering operation.

Storage in Viareggio

Storage, consolidation and onward delivery arrangements.

A shore-side base for parts and outfitting orders in Viareggio.

Storage arrangements

Plan storage for spare parts, interior items and project supplies against your requirements.

Consolidated orders

Coordinate incoming purchases from multiple suppliers and organise the release schedule.

Delivery to the yacht

Arrange onward transport to the yacht or shipyard in line with the agreed project programme.

Capacity, access, handling requirements, storage conditions and delivery terms are agreed before goods arrive.

Hard-to-find & obsolete parts

Specialist sourcing when normal supply routes are not enough.

A part number, a nameplate or a photograph is the starting point.

Identify accurately

Work from serial numbers, manuals, drawings, dimensions and photographs.

Search beyond standard stock

Explore manufacturer, distributor and specialist sources for scarce or discontinued components.

Present the options

Check specifications, condition and traceability; submit alternatives for technical approval.

Part substitutions and compatibility require approval from the vessel's responsible technical team.

Interior outfitting & logistics

Support from initial selection through coordinated delivery.

Bring the interior brief,
brand selection and
purchasing plan together.

Build the specification

Coordinate room lists, quantities, sizes, finishes, samples and personalisation requirements.

Control the order programme

Follow quotations, approvals, production dates and staged purchasing requirements.

Coordinate the handover

Consolidate deliveries and align transport with the yacht or shipyard's readiness.

Support for new builds, complete refits, cabin refreshes and seasonal replenishment.

Working with MYT Marine

Send a requisition, project brief or service requirement.

01 Send the details

Brand, model, part number, quantity, delivery location and required date.

02 Review the proposal

Product options, specifications, pricing, lead times and the agreed service scope.

03 Approve & coordinate

Confirm the selection, purchasing priorities and delivery arrangements.

04 Track & deliver

Follow order progress, logistics and any outstanding technical or project requirements.

Your requirement, our next enquiry

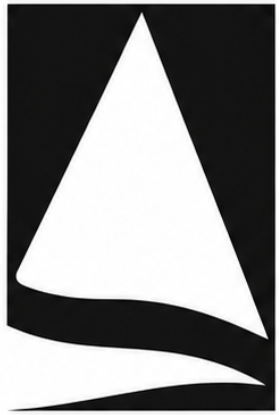

Other brands and specialist requests are welcome.

A wide sourcing selection.

A specification-led approach.

This catalogue is a broad selection, not an exhaustive market inventory. Some names cover legacy equipment or specific product ranges. Product suitability, current availability, condition, lead time and supply terms are confirmed individually.

Brand names remain the property of their owners; inclusion does not imply authorised dealership or exclusive representation. Service scope is agreed for each engagement.
